

## *Electrocyclizations and Torquoselectivity*

MacMillan Group Meeting  
Andrew Capacci  
4/24/13

# Pericyclic Reactions

## ■ Classes of pericyclic reactions

Cycloaddition  
Reactions

$$\Delta\sigma = \pm 2$$

$$\Delta\pi = \pm 2$$

Electrocyclic  
Rearrangements

$$\Delta\sigma = \pm 1$$

$$\Delta\pi = \pm 1$$

Sigmatropic  
Rearrangements

$$\Delta\sigma = 0$$

$$\Delta\pi = 0$$

# Pericyclic Reactions

## ■ Classes of pericyclic reactions

What is a pericyclic reaction?

# Pericyclic Reactions

## ■ Classes of pericyclic reactions

What is a pericyclic reaction?

■ A concerted reaction wherein the transition state is characterized as having a cyclic array of interacting orbitals.

# Pericyclic Reactions

## ■ Classes of pericyclic reactions

Cycloaddition  
Reactions

$$\Delta\sigma = \pm 2$$

$$\Delta\pi = \pm 2$$

Electrocyclic  
Rearrangements

$$\Delta\sigma = \pm 1$$

$$\Delta\pi = \pm 1$$

Sigmatropic  
Rearrangements

$$\Delta\sigma = 0$$

$$\Delta\pi = 0$$

What is a pericyclic reaction?

■ A concerted reaction wherein the transition state is characterized as having a cyclic array of interacting orbitals.
